Personal Statement

Graduating with First Class Honors from the University of the West of Scotland, I obtained a bachelor's degree in web and Mobile Development. Through my volunteer work with Won Connect CIC, I have garnered substantial practical experience as a WordPress developer. My skill set encompasses various aspects of web development, including team collaboration, problem-solving, and crafting user-friendly solutions for both front and back end, utilizing an array of programming languages such as HTML, CSS, JavaScript, MySQL, and PHP. Furthermore, I bring proficiency in server-side development, with expertise in ASP.NET, Java, MVC, and C#. Additionally, I have expanded my repertoire by studying AWS, React, Laravel, and React Native. I am enthusiastic about using my expertise and understanding in a comprehensive web development position, prepared to make substantial contributions to projects.

Education:

University West of Scotland: (2022 - 2024)

BSc Web and Mobile Development

- I've graduated with First Class Honors from the University of the West of Scotland. I have extensive experience with client-side programming using HTML5, CSS3, and JavaScript, as well as server-side development with ASP.NET, PHP, Java, MVC, and C#. To further enhance my capabilities in complex server programming and deployment, I have studied AWS, React, and Laravel. Additionally, I have significant experience in managing secure servers for online and mobile services, proficiency in working with LAMP stacks, expertise in integrating APIs, and a foundational understanding of Java for mobile development.

City of Glasgow College: (2021 - 2022)

HND Web Development

- My advanced coursework focused on the integration of database material into web sites via the use of APIs, PHP, and MySQL. Additionally, the necessary competencies to choose, implement, set up, and oversee an e-commerce solution to bolster a firm via the utilisation of technologies like "WooCommerce" and the creation of the design using "Elementor Pro" I acquired proficiency in collaborative work, problem-solving (including critical thinking and organisation), and project management via proactive planning to coordinate tasks towards defined objectives.

City of Glasgow College: (2020 - 2021)

HNC Digital Design and Web Development

- I had advanced study a wide range of web development on topics such as HTML5 and CSS responsive grids layout, native "JavaScript, JavaScript libraries, PHP and MySQL" and skills in graphics, UX, and interface design using software such as "Adobe XD, Photoshop, Illustrator and Figma".
- Also, Content Management Systems using the "WordPress" platform, to improve my ability to create dynamic, media-rich websites responsive to user interaction.

IT Professional Training LTD: (2019 - 2019)

Web Application Development

- I successfully concluded a comprehensive web application development course, which provided me with a solid understanding of fundamental client-side technologies such as HTML, CSS, Bootstrap, JS, jQuery, Node JS, APIs, MongoDB, Git, and GitHub. The course provided me with favourable comments on my advancements and contributions in the realm of website digital design.
